RE: Letter of Reference

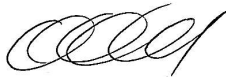

To Whom It May Concern:

This letter of reference is in support of Mr. Steve Beriault and the promotion of his book "Tales in the Insulin Vial". I found the book very readable as it chronicles many of Steve's life experiences during his life long battle with Diabetes.

To those that read the book or hear Mr. Beriault speak, you will be impressed with the amount of determination he possesses. This has let him accomplish so much in the face of adversity. I have heard Steve speak in public and found him engaging and easy to listen to. Audiences will enjoy his presentation and positive approach. He truly is an adventurer with a story to tell providing a message of inspiration for those who attend.

Please consider supporting Mr. Beriault on his book tour and speaking engagements.

Sincerely,

Donald E. DuVall M.D. FRCPC  
Clinical Director of Surgery  
Royal Victoria Hospital of Barrie
